## CLARION NORTH COUNTRY TRAIL GEOTRAIL

We would like to welcome you to our portion of the North Country National Scenic Trail.

The North Country National Scenic Trail was established by Congress in 1980. Since that time, groups like ours have been working feverishly to complete what will be, at over 4,600 miles, the longest National Scenic Trail. When complete, this trail will be more than twice the length of the world famous Appalachian National Scenic Trail.

That explains the North Country National Scenic Trail. We'll let your adventure on this geotrail explain our section of it to you.
