

# North Country National Scenic Trail USDA Forest Service Partnership

The North Country Trail Association (NCTA) and National Park Service have a Memorandum of Understanding with U.S. Forest Service (USFS) Region 9, detailing the collaborative management of the trail. Additionally, the NCTA has a Stewardship Agreement with the USFS, and Challenge Cost-Share agreements with both the USFS Regional Office and individual forests. These agreements fund various projects, including volunteer training, bridges, boardwalks, signage, and trail construction and maintenance. In 2024, the NCTA Field Grants program funded more than \$10,000 for projects on USFS lands.

## 1 Sheyenne National Grasslands

NCNST Miles: 31.5
