Welcome to the 107 miles of trail that the Grand Traverse Chapter (GTC) section of the North Country National Scenic Trail (NCNST)!

There is plenty of beautiful scenery to enjoy, so in 2011 our club initiated this challenge, and it's a simple one. Hike our entire club section, in segments or 'thruhike' style, north to south or vice versa. It doesn't matter how, just get out and hike!

Once you've completed our whole section, the club will recognize you with a decal for your car and your name engraved on a plaque that hangs in the Boardman River Nature Center in Traverse City, MI.
